The Merging of Two Dreams

**"Bringing the spa experience
and natural beauty & wellness
products to YOU. "**

Reed Tripp
Spa-Nique Founder

Reed Tripp, Founder of Spa-Nique, is a nationally registered massage therapist with over 20 years of experience in the healthcare service field. While attending a conference in 2002, Reed recognized the need to bring spa services to places it was not readily available. He had a vision to bring a new innovative approach to spa services. In 2008, Reed introduced Spa-Nique, a mobile spa that can reach clients anywhere.

Today, Spa-Nique has exclusive agreements with 14 hotels in the Pittsburgh area, has offered services at major sporting events around the city, works with a number of Pittsburgh area businesses and is in the process of expanding nationally. It is Reed's vision to make this affordable luxury available in communities, businesses, hotels, and events where normal spa services are not available anywhere in the country.

Spa-Nique -

The next generation of spa experience.

If you are interested in partnering with Spa-Nique, contact Reed Tripp for more information.

Make Your Dreams Part of Ours
Have you considered the idea of bringing Spa Services to your business or facility?

Many independent business locations agree that offering spa services to employees, clients, or patrons is a good idea. The challenge has been the sizeable investment required to make these.

Now, Spa-Nique has the solution...

When you agree to offer the Spa-Nique Services exclusively, you choose the frequency and day(s) of spa services for your location. Spa-Nique will do the rest. It's really that simple.

Benefits for your company:

- Happy employees who feel appreciated
- Higher productivity from employees
- Improved health of employees
- Repeat clients
- Ongoing traffic to your establishment
- Increased revenues
